BORROWERS

**53,000**  
LIBRARY  
VISITORS

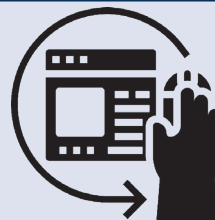

As we move forward into 2024, the Library is committed to providing new and interesting services to our patrons. We are holding classes for patrons in our expanded MakerSpace to teach them how to use our equipment and create fun and interesting items. We continue to renovate and expand patron spaces in the building, and have added a Vinyl Listening Station for listening to records. We have completed the Sustainable Libraries certification process and look to continue promoting environmentally sound, economically feasible and socially equitable practices and projects both in the Library and within the community, and we will continue to offer all of the great services (passports, notary, Library of Things, museum passes, discount tickets, seed library, and creative programs for Adult, Children and Teens) that make the Library a center of community gathering.
